

2-Way Glue Pen

- Permanent or temporary bond
- Dries quickly
- Great for adhering glitter
- Blue when wet; clear when dry
- 10 grams
- Chisel tip
- Washes off skin with soap and water
- Acid free

Quick Trick

Need a temporary bond for a stencil or mask? Or do you need a permanent bond for a card or page?

Look no further than the 2-Way Glue Pen.

1. Wet bond (permanent bond): While the glue is still blue and wet, immediately make the bond. Use a wet bond when you apply glitter.
2. Dry bond (temporary): Apply glue lightly and wait for the adhesive to dry (it will become clear). Use this method when masking or positioning stencils. When you are finished, you can remove the bond easily.

FYI

To start the 2-Way Glue Pen, push the tip in a few times and allow the glue to saturate the tip (the tip will turn blue). Always replace the cap after use.

Anywhere Glue Stick

- Odorless and permanent
- 2 per package
- 20 grams of solid glue each
- Rectangular design with square corner edge makes hard-to-reach areas reachable—you can even get into corners
- Economical choice for scrapbooking and card making
- Acid free, nontoxic

FYI

This is an economical adhesive. To prevent your glue from drying, store it in a re-closeable plastic bag.

Glue Dots

- Super-sticky, double-sided adhesive dots
- No fumes, no mess, no drying time required
- Bond instantly to a variety of materials: paper, fabric, wood, foam, plastic, and more
- Easy to use
- Photo safe
- 300 per roll
- Each dot measures approximately 3/16" in diameter
- Great for attaching embellishments

Quick Trick

The best way to place Glue Dots is to press your project against the Glue Dot dispenser—you don't even need to touch the Glue Dots!

FYI

Size of dots may vary plus or minus 1/16". Press the paper or object onto the dot, then pull it away; the dot will adhere to the object. Don't try to pull the dot off the liner paper with your hands—it will stick to you and not the paper!

Multipurpose Liquid Glue

- Latex rubber acrylic resin adhesive
- Adhesive can be both permanent or temporary depending on how it is applied - see FYI
- Works great for adhering cardstock or Designer Series Paper to chipboard or Coaster Board
- Dries clear
- Excellent for adhering Stampin' Glitter to surfaces
- Dual-tipped applicator: use small tip for precision placement and wide tip to cover larger areas
- .875 oz.

FYI

Multipurpose Liquid Glue is temporary or permanent. To use it as a temporary adhesive, allow it to dry before adhering. To use it as a permanent adhesive, adhere it when wet.

SNAIL Adhesive

- Simple, Neat, Affordable, In-Line
- 472" of double-sided adhesive
- Applies a controlled amount of adhesive directly to your project, so your hands and work area never get sticky
- Great for cards, scrapbooks, or other art projects
- Keeps fingers and art pieces free from messy glue
- Refill cartridges sold separately
- Permanent; creates a strong bond

FYI

To use SNAIL Adhesive, place the cartridge where you want the adhesive to begin. Roll it slowly (like a snail) along your artwork; when done, lift sideways using a quick check mark motion.

Stampin' Dimensionals

- Double-sided, self-adhesive foam mounts
- 1/16" diameter
- 300 per package
- Use multiple Stampin' Dimensionals for multilevel projects or added height
- Great for layering and 3-D effects

Sticky Strip

- Double-sided, pressure-sensitive acrylic adhesive
- 1/4" wide
- Very strong—perfect for die-cut boxes and glitter
- 10 yards per package
- Comes in a zippered plastic bag for convenient storage
- Acid free

FYI

Cut Sticky Strip to the desired length and lay it down onto your project, then remove the red liner. Your project is then ready to be assembled.
